Strategic Tax Expertise for Complex Wealth and Corporate Structures

In an environment of increasing regulatory scrutiny and cross-border transparency, financial institutions and their clients require tax counsel that combines technical depth with strategic insight.

Tuerlinckx Tax Lawyers, founded in 2011, is a leading Belgian tax law firm that is prepared to challenge conventional approaches in order to achieve the best possible outcomes for its clients.

With offices in Antwerp, Limburg and Charleroi, and a future office in Waterloo (from 2027), the firm brings together a team of 45 dedicated professionals known for their pragmatic, solution-oriented approach to complex tax matters.

The firm's primary focus is on preventing and mitigating **tax disputes**. When disputes do arise, clients can rely on an efficient and robust defence, both during administrative proceedings and before the courts.

Tuerlinckx Tax Lawyers has particular expertise in **wealth structuring and estate planning**, advising **private clients, financial institutions and special purpose vehicles (SPVs)** on sophisticated asset and tax structures.

In addition, Tuerlinckx also assists companies and investors at key strategic moments, including **mergers, acquisitions, restructurings and corporate reorganisations**, ensuring that tax strategy and corporate law considerations are fully aligned.

Advice

Are you looking for robust, well-founded tax advice, written in clear language and which offers a viable solution? Then you have come to the right place at Tuerlinckx Tax Lawyers! We supplement classic tax advice with a tax risk analysis to ensure that a structure passes the tax administration or court review. Together, we pursue well-founded solutions that meet both short and long-term objectives.

Rulings

Naturally, you want maximum certainty about the tax implications of the activities you undertake. With a tax ruling, you make clear and binding agreements with the tax authorities in advance. That legal certainty provides additional peace of mind and comfort in tax discussions. At Tuerlinckx Tax Lawyers, we have the required expertise and experience to properly guide you and your advisers through this complex process.

Disputes

You can count on the team at Tuerlinckx Tax Lawyers for assistance with tax audits and discussions with the tax administration, both at the administrative stage and in court. We ascertain precisely what the tax administration will and will not allow in specific tax files. We also explore the viability of the tax authority's claims and the arguments you could use to make a difference in court.

Regularisations

What if certain components of your assets have not been subjected to the correct tax regime? You can still achieve a rectification within a legally prescribed framework, through tax regularisations / voluntary disclosures. The experts at Tuerlinckx Tax Lawyers can analyse how to use this tax technique correctly and the remainder of the process.

Negotiations

Tuerlinckx Tax Lawyers are experienced negotiators. Our priority is always the best possible deal for our clients. Whether it concerns contract negotiations, settlements or business transactions, we provide the most lasting and beneficial solution!

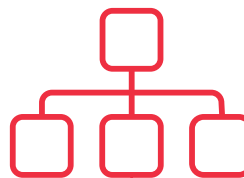

**Tax is
everywhere**
